

These line plots show the ages of students in two art classes.

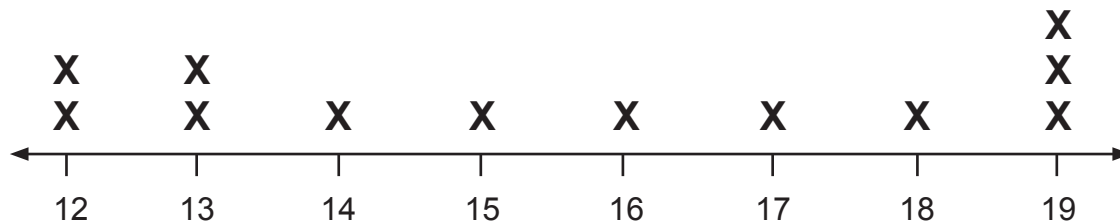

1 Find the range, median, and mode of each set.

Class 1 range = _____ median = _____ mode = _____

Class 2 range = _____ median = _____ mode = _____

2 How are the data in each set the same? How are they different? _____

BRAIN STRETCH

The total rainfall over two days was 14.6 mm.
 The first day's total was 4.5 mm less than the second day's total.
 How much rain, in centimeters, fell on each day?
