

Think About It: Colour-Changing Celery

1. What did you notice about the celery leaves after 24 hours?

2. What did you notice about the celery stalks after 24 hours?

3. What happened to the coloured water from the glasses? Explain.

4. What is the xylem and what is its function?

5. What happens to some of the extra water in the celery stalks? Explain.

6. What happens as the extra water particles move into the air? Explain.
